# SUIKATT-AI

First Utility Backed Meme-Coin On SUI

WHITEPAPER

# Table Of Content

# Introduction

The **SuiKatt-Ai** Token project aims to create the largest utility backed meme-themed community on the SUI blockchain. The project will provide various benefits to its users, such as freemint dual-life NFTs, OG and early supporter NFTs, and public mint NFTs. This NFT will be the core components of the ecosystem.

Additionally, the project will reward holders of its NFTs and the early SUI community members through a unique tokenomics structure while developing several utilities that will be key to growing the SUI ecosystem immediately after mainnet launch.

# Mission

Reinventing the community spirit of meme token, bringing back the hype of last bullrun through community backed token with full commitment from the team all backed by utilities and ecosystem growth

Give mass attention to Cat meme themed concepts, make cat great again while delivering the best concept to drive mass adoption to the SUI blockchain chain.

# Roadmap

**SuiKatt-Ai** roadmap outlines the team's plans to execute its mission. The project's initial focus is on building a strong community around the Katt Token, with a range of initiatives planned to drive growth and increase participation. This includes airdrops, NFT mint, token claims, and multiple CEX listings. The project also plans to explore partnerships and collaborations to expand its reach and increase adoption.

# Roadmap

- NFT MINT (NFT will be minted on opensea and migrated to Sui chain immediately opensea add support of Sui network)

- TOKEN AIRDROP TO NFT HOLDERS

- TOKEN LISTING ON TOP DEX ON SUI

- SUIKATT LOCK

- SUIKATT STAKING PROTOCOL

- SUIKATT CHARTING TOOLS

- KATTDEX TESTNET

- KATTDEX LAUNCH

# Plans to Execute

**Airdrops**: The project will provide an airdrop of KATT coin to all NFT holders, with the reward based on categories and the number of NFTs held.

**Token Claims**: The airdrop claim for all categories will commence after the NFTs are minted out, and the token claim duration will be 48 hours. (All unclaimed token after this period will be burned)

**DEX Listing**: SuiKatt-Ai will be listed on the top Dex with maximum liquidity locked

# Plans to Execute

**Multiple CEX Listings**: The team aims to list the SUIKATT token on multiple centralized exchanges within 48 hours after the initial DEX listing.

**Partnerships and Collaborations**: The project plans to explore partnerships and collaborations that will help to promote and quickly expose the Sui blockchain to a wider audience.

**Community Engagement**: The project will engage with its community through various social media platforms, including Twitter, Telegram, and Discord, to build a vibrant and engaged community.

# Tokenomics

Total supply: 400,000,000,000,000,000.00

Airdrop to NFT HOLDERS: 70%

LIQUIDITY:30%

Team token: 0%

All unclaimed token will be burned after 48 hours

**Tax**

9% volcanic tax burn

Development 3%

Reward to Katt Holders 3%

LP KATT/SUI 2%

Burn 1%

# Team

The **SuiKatt-Ai** project has a dedicated team of experienced developers who are committed to building the largest utility backed meme-themed community on the SUI network. The team is led by experienced professionals with a proven track record in the blockchain and crypto industry.

# Conclusion

The **SuiKatt-Ai** token will be the first super-hyped cat meme-themed token project built on the newly launched Sui network(blockchain) which includes creating the largest army of meme believers/lovers by providing various benefits that foster community growth and developments which will be fully backed by utilities as specified on the road map.

Foundation members will be able to mint the first 99 free mints dual life NFT (FCFS) which will be followed by the OG and early supporters NFT that will be minted at $1 and $1.5 SUI equivalent respectively.

# Conclusion

Additionally, Katt token has a unique tokenomics structure that rewards holders of its NFTs while the token will be used as a means to reward the community with the NFTS granting rights to holders to determine how the rewards will be distributed.
